#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

This diagram shows microphones attached to channels 1 to 4 and a CD-G player connected to the line-level inputs of channel 7/8. An effects processor requires a mono input from the FX send and its stereo outputs connect to the stereo return inputs. A dual compressor is connected to the input of channel 1 and 2, allowing vocal compression.

Mackie SM4502 powered speakers and SM1801 powered subwoofers are connected to the left and right main output. Two SM4502 powered speakers are set up as stage monitors and connect to the mixer's monitor output. The mix main controls of each channel allow you to create a stage monitor mix. But is independent of the main mix. Headphones are used for monitoring.

A laptop running Karaoke software connects to the USB port and allows a 2-channel output to play in the main mix.

The CD-G player allows karaoke text and graphics to be displayed on the TV monitor.
